KAWC shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which

KAWC fails or refuses to furnish all or part of the requested information, KAWC shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, KAWC shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Refer to KAWC's Application, paragraph 10, where KAWC states that "[a]ll the proceeds from these [long-term debt] financings will be used to refinance short-term debt necessary to (i) fund construction expenditures, and (ii) meet other internal cash requirements."

a. List and describe each construction expenditure for which KAWC intends to use the proceeds of the financings to partially or fully finance. This description should include the project name and the estimated cost of the project.

b. Identify and describe the "other internal cash requirements" for which the proceeds will be used.

2. Describe KAWC's efforts, if any, to reduce the cost of its long-term debt through the refinancing of existing long-term debt that has higher than current market interest rates.

3. a. Provide all studies, analyses, reports, and reviews that compare KAWC's cost for the proposed financing as a participant in the borrowing program with American Water Capital Corp. to KAWC borrowing directly from third parties.

b. If no studies have been conducted, explain why KAWC's continued participation is more cost-effective than obtaining the proposed financing from a third party.
